A Better Choice of Disc

SCREAMER!!

Ultra Long Range Driver

Our most stable driver, we expect this disc to fly farther than any other disc on the market. Perfect for those extra long holes where distance off the tee is a must. Great for helping any player throw farther!

THE MISSION

Mid-range

This will be one of the most important discs in your bag -- perfect for mid-range shots and longer-approach shots. Everyone looking to improve their game must be *on a mission* to leave themselves with the shortest putts possible.

GAMMA RAY

Straight Flyer

Holding its line as you throw, yet remaining stable at the end of the flight path, this disc is perfect for keeping you on the fairways where it's essential that you stay out of trouble.

MONEY

Putter

The only way to make money on the tour is to have a quality putting disc. No other disc will take as many strokes off your game as the MONEY. MONEY is also great for approach shots.

SECRET WEAPON

Understable Driver

Perfect for those left to right shots and carving your way through the woods, give an understable disc some *hyzer* and watch it come up straight. The SECRET WEAPON is a must for the beginning golfer.

FLYING SQUIRREL

Understable Mid-range

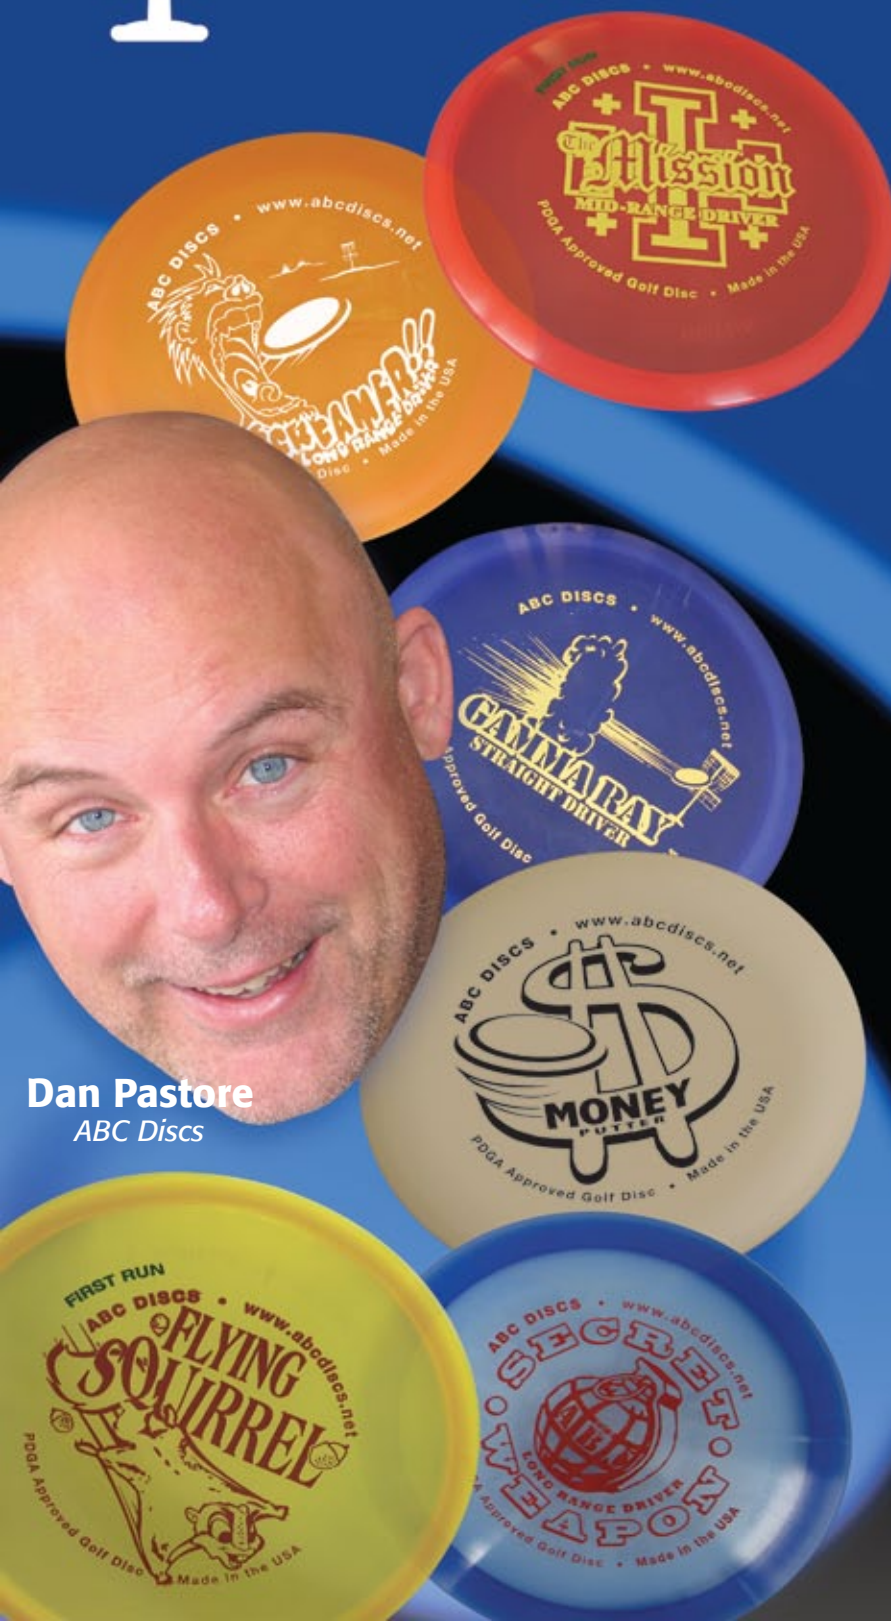

One of the easiest discs to throw. Give the disc some *hyzer* with a three-quarter throw and it will glide wonderfully!
